MADE IN GERMANY

# FIT & HEALTHY CATALOGUE 2017

# New equipment

for training and therapeutic applications

What is conducive to healthy child development is equally ideal for adults as well. Having said that, we take pleasure in presenting a new line of products all designed with the support of therapists and sports scientists. This special catalogue sets out our new assortment focused on meeting sporting and therapeutic needs. As most of you will already know by now, these issues are by no means new territory to us. After all, we have accumulated 25 years of experience in the development of sports products for children, for ever coming up with innovative creations all "Made in Germany" for nurseries, schools and leisure. With direct access to nature's sustainable wood growth in Germany's Ore Mountain Region we utilise the renewable resources at our disposal to handcraft fine products geared to standards of safety that always qualify for top priority.

Fun and sports are in no way restricted to age! In fact, mobility is becoming more important than ever before, especially among adults, the same applying to personal physical awareness. The link between physical and mental fitness is meanwhile generally accepted as a common fact. Our products serve to promote personal fitness as well as lending support to the work performed by therapists.

Enjoy browsing through the catalogue and selecting the items you wish to order.

Best wishes from

Nadja Stumm  
and the Erzi-Team

# Experts co-developing

and involved in testing Erzi innovations

## Hello!

I'm your escort in discovering the range of Erzi training equipment on the following pages, demonstrating suitable exercises and how to benefit most from correct usage.

46250 Momentum XL on p. 8

## INFO

Our expert is actively involved in the development of all new items of equipment in addition to subjecting them to rigorous testing.

The new training equipment devised by Erzi ranges from purely classical balancing exercises performed on one leg right through to targeted strength-training sessions involving the arms and legs, combined in each case with the back and abdomen muscles. All products cater for variety, fun and highly effective training workouts.

Längenfeld (Tirol)**

# Woodrolls

a genuine Erzi quality product!

## What's the purpose of Woodrolls or the reason for wood?

The Erzi Woodroll line enhances fascia training, raising it to a level hitherto unprecedented. Natural beech produces an incredible depth penetration effect on account of its hardness and inherent warmth. In addition, the anti-bacterial properties of natural wood products along with their weight make them ideal for performing soothing stroke-massage applications. Thus all requirements are equally catered for, regardless of whether the rolls are used by beginners or by professional athletes for revitalisation purposes, or as a means of preparing users about to take up some strenuous form of activity. Therapists will simply dote on the high quality standards enhanced by the pleasant feel of wood in its purest state.

**Erzi Woodroller Balls** literally round off any course of self-massage therapy. When exercising with these balls, you are really taken down to the roots and relieved of persistent muscular tension brought about by the inherent weight. Before use we recommend a pre-massage with the aid of the classical Woodroll (p.7).

**47000**

### 1 Woodroller Ball

Ø: ..... 8,0 cm  
weight: ..... 220 g  
material: beech, waxed

### 2 Woodroller Ball XL

**47001**

Ø: ..... 10,0 cm  
weight: ..... 400 g  
material: beech, waxed

To produce that intensive rounding-off effect, it is advisable to work with the Woodroller Ball at the end of a revitalisation session. It can be used on all parts of the body for removing tension as well as for loosening tackiness of the fascia connective tissue. Depending on the desired intensity, the Woodroller Ball is usable as a classical massager or (if applying one's own bodily weight) in a standing posture against a wall or in a reclining position down on the floor.

## INFO

Depending on the desired intensity, the Woodroller Bone can be used in a standing posture against a wall or in a reclining position down on the floor.

## NEW

## NEW

The Erzi Woodroller Bone is specially designed for fascia-tissue training involving the back muscles. On account of its shape and the exceptional hardness of the wood, the lower muscles of the back can be reached with ease.

Also ideal for applying to the thighs and calves.

### 3 Woodroller Bone

**47005**

length:..... 19,5 cm    Ø: ..... 8,0 cm  
weight:..... 470 g  
material: beech, waxed  
distance pressure point: 11,5 cm

### 4 Woodroller Bone, long

**47006**

length:..... 22,0 cm    Ø: ..... 8,0 cm  
weight:..... 820 g  
material: beech, waxed  
distance pressure point: 14,0 cm

### 5 Woodroller Bone XL

**47007**

length:..... 21,5 cm    Ø: ..... 10,0 cm  
weight:..... 460 g  
material: beech, waxed  
distance pressure point: 11,5 cm

### 6 Woodroller Bone XL, long

**47008**

length:..... 24,0 cm    Ø: ..... 10,0 cm  
weight:..... 780 g  
material: beech, waxed  
distance pressure point: 14,0 cm

The Erzi Woodroller Bone is particularly effective in combatting backache. Its shape promotes activation and deep relaxation of the muscular system while affording protection to the spinal column.

Different widths enable the perfect depth penetration effect for different body sizes.

# Fascia training

Classical and super intensive!

Working with the **Erzi Woodroller Rugby Ball** provides a unique form of fascia-tissue training. It facilitates reaching groups of muscles previously hard to get at. Its soft curves can be used for a soothing massage.

## 1 Woodroller Rugby Ball

47010

length..... 20,0 cm    Ø:..... 10,0 cm  
weight:..... 610 g  
material: beech, waxed

The exceptional shape of the Erzi Rugby Ball allows the user to reach those special muscles that run past the groin. This region is one of the major contributory causes of pain experienced in the regions of the groin and back. The posterior and chest muscles likewise benefit from the relaxation and invigorating effect produced by the Erzi Rugby Ball. The pointed taper facilitates deep and localised trigger-point massage as well as loosening tackiness of the fascia connective tissue.

The **Erzi Woodroller Cone** is ideal for performing a whole variety of different exercises aimed at producing an enhanced depth penetration effect. It serves to free the groin, chest and posterior muscles from strain and tension.

In addition, the Woodroller Cone is a great tool for targeted trigger-point massage apart from being smooth to handle.

## 2 Woodroller Cone

47015

length..... 15,0 cm    Ø:..... 10,0 cm  
weight:..... 580 g  
material: beech, waxed

The hardness and weight plus the shape – similar to that of the Rugby Ball – all contribute to the efficiency of working with this natural beech product.

The **Woodroller Cone** is smooth to the touch and can be put to effective use for manual self-massage. Applying the shorter taper serves to ease obstinate muscular tension. Localised massage of the neck and shoulder muscles is also facilitated. It almost goes without saying that the Woodroller Cone is ideal for performing fascia-tissue exercises in a reclining posture down on the floor, particularly in the posterior and groin regions.

## Woodrolls – For constructive activation and mobility workouts

These classical fascia rolls cater for enjoyable soothing massage applications as well as for constructive activation and mobility workouts. It is the use of natural beech incorporating inherent warmth along with stability and high quality that makes our fascia rolls so incomparable.

Nothing could be better for sports-event training, daily back-training exercises or just for sheer relaxation brought about by a thorough self-massage. The natural state of the material makes fascia training a very special experience indeed!

Erzi Fascia Woodrolls are the perfect thing for stimulating and relaxing the muscles before engaging in any strenuous activity or purely and simply for revitalisation. On account of their large-dimensioned bearing surface and the gentle pressure exerted, the rolls are ideal for users preparing for other Erzi Woodroll shapes producing a greater depth penetration effect.

**47020**

### 3 Woodroll classic

length..... 30,0 cm    Ø: ..... 14,5 cm  
weight: ..... 1,9 kg  
material: beech, waxed

**47021**

### 4 Woodroll structure

length..... 30,0 cm    Ø: ..... 14,5 cm  
weight: ..... 1,87 kg  
material: beech, waxed

## INFO

The fascia rolls reveal outstanding quality features. The variety of different shapes serves to facilitate training and revitalisation applied to all groups of muscles.

# Momentum

Therapy & training in perfect coordination!

47025

1

## 1 Muscle-trainer Momentum XL

length:..... 107,5 cm      width:..... 25/26,7 cm  
 height:..... 11,5/12,8 cm      (measures without/with roll)  
 weight:..... 5,24 kg

content: 1 baseboard, 2 handles, 2 treads, 1 semi-cone, 1 roll  
 material: birch plywood, laquered, coloured laminated; no-slipping pad; silicone

A multifaceted functional-training and therapy device for exercising strength, balance and coordination applied to all groups of muscles.

The **Erzi Momentum XL** accesses you to potential training skills in a whole variety of different positions. These range from simple classical balancing exercises performed on one leg right through to targeted strength-training workouts involving the arms and legs, combined in each case with the back and abdomen muscles. Going for this unit means opting for variety, fun and highly effective training drills. The Erzi Momentum XL can be put to efficient use for both therapeutic and fitness functions. The use of interchangeable wooden inlays and balancing bases means that there is virtually no end to the potential opportunity for achieving maximum exercising results applying this versatile muscle-trainer.

magnetic mounts

7 pieces in a set

### List of exercises (selection)

- Whole-body balancing exercise
- Balancing exercise for pelvic region
- Press-up exercises
- Trunk stability training
- Abdomen training
- Back mobility exercises
- Balance and body-tension exercising with the elastic fitness belt
- Balancing- knee bends

LOAD CAPACITY UP TO 150 kg

## 2 Muscle-trainer Momentum

length: ..... 48,5 cm    width: ..... 25 cm  
 height: ..... 11,5 cm    Ø: .....  
 weight: ..... 2,48 kg

content: 1 baseboard, 2 handles, 2 treads, 1 semi-cone, 1 roll  
 material: birch plywood, laquered, coloured laminated; no-slippering pad

The Erzi Momentum is a versatile functional-training and therapy device for exercising strength, balance and coordination applied to all groups of muscles.

In contrast to the larger Momentum XL, this smaller version is specially designed for those just starting with balancing and coordination-training exercises. It facilitates targeted mobility and control focused on the knee, hip and ankle joints.

Mobilisation of the spinal column

**INFO**  
 The majority of exercises featured in this broad range are suitable for performance on both the Momentum XL and Minor Momentum.

## 1 Sling Trainer Orbi

length(rop): ..... 63 cm                      width:.....-  
 height:..... 3 cm                                  Ø:..... 50 cm  
 weight:..... 2,6 kg  
 material: birch plywood, laquered; plastic; metal  
 delivery: mounted

A complete gym incorporated in a single piece of equipment.

This is an indispensable piece of equipment for training all major muscle groups geared to a whole number of different exercises. No matter whether it's the legs, arms, abdomen or back that are in need of exercise, good trunk stability and body tension are fully catered for. The **Sling Trainer Orbi** has a significantly positive impact on training the lower abdominal region and muscles, thus serving to counteract muscular weakness and backache.

## INFO

The **Orbi** is a resourceful training device accommodating the needs of up to two persons at a time with special emphasis on strengthening the muscular system of the abdomen and back.

▶ Stretching exercises

adjustable

## Scapstick – the Shoulder Trainer

The Erzi Shoulder Trainer Scapstick is designed for exercising mobility of the shoulders.

It provides specifically targeted potential for expanding individual muscles, thus producing the desired therapeutic effect to counteract incorrect posture in the shoulder joints.

Movable handle mounts cater for a whole variety of different grip options and exercising motions, all conducive to shoulder mobility.

2

**NEW**

**47040**

### 2 Shoulder Trainer Scapstick

length: ..... 117 cm      width: ..... 27 cm  
height: ..... -      Ø (Stahlrohr): ..... 2,8 cm  
weight: ..... 6,3 kg

content: 1 bar, 2 handles, 4 fixing pins

material: Birch plywood with paint finish; stainless steel

Delivered in single components for individual adjustment and adaptation.

## INFO

Use of the Slackspot as a training and therapy device lends support to sensorimotor training functions, whilst also improving coordination and sense of balance.

low height

46405

## 1 Slackspot Thera

length:..... 155,5 cm    width:..... 18 cm  
 height:..... 21 cm    Ø:..... -  
 weight:..... 11 kg  
 content: 1 Slackspot, Mounting set, Instructions  
 material: birch plywood, laquered  
 delivery: mounted  
 No toy! Sports goods!

The **Slackspot Thera** provides support for those performing balancing and coordination exercises for the first time as a means of gaining safe-walking confidence applied to everyday situations. The low balancing height caters for safe balance without assistance, no means of fall protection being necessary. The adjustable belt tension and stopper feet fitted to the underside are just two of the many features distinguishing this fine product. Slackspot needs no additional anchorage and is thus capable of being used in many different locations.

- Pre-assembled
- Adjustable belt tension
- Use possible without fall protection

**LOAD  
CAPACITY  
UP TO  
150 kg**

The **Balancing Board Thera** is fun to play with and combines enjoyment with bodily exercise. Anti-slip treads act as a support to adults whilst they direct the balls along the track to the finish. The flexible anti-slip seesaw base fitted to the underside of the balancing board caters for appropriate safety. The integrated handle is useful for carrying the board when moving from one place to another.

**INFO**

Not every track can be made to direct the ball from the outer circle to the inner one and back again. This calls for careful balancing and coordination skills!

**LOAD CAPACITY UP TO 150 kg**

**NEW**

**47045**

**2 Balancing Board Thera**

length: ..... 73 cm      width: ..... 47 cm  
 height: ..... 7,3 cm      Ø: ..... -  
 weight: ..... 4,79 kg

content: 1 game board, 1 wooden ball  
 material: birch plywood, laquered

Warning! Not suitable for children under 36 months. Choking and suffocation hazard! Contains small parts and balls.

**Figure of Eight.** This is used primarily as a means for promoting concentration as well as for training hand motor skills and touch sensitivity. The interior ball guides impart an additional positive effect to motor exercising skills applied to the arm and shoulder regions. The two- and three-dimensional concept for this product is clearly illustrated in an exercise booklet supplied with the product. The two steel balls supplied with the product are always within grip as a result of the concealed magnetic ball mounts and can be integrated into this coordination-focused game, either individually or combined. An Erzi concentration game constructed of coated laminated birch.

**45409**

**3 Lying of Eight**

length: ..... 51,5 cm      width: ..... 20,0 cm  
 height: ..... 1,8 cm      Ø: ..... -  
 weight: ..... 640 g

content: 1 game board, 2 steel balls  
 material: birch plywood, laquered

Warning! Not suitable for children under 36 months. Choking hazard! Contains small balls.

# Multi-talent

in the fields of sports and therapy

1

## 1 Maxi Roller Board

44443

length: ..... 75 cm    width: ..... 37 cm  
 height: ..... 8,5 cm    Ø: ..... -  
 weight: ..... 3,86 kg  
 material: birch plywood, waxed  
 delivery: mounted

The **roller board** is stimulating exercise and coordination. The proprietary branded rollers consist of solid rubber with a slewing ring and double ball bearings. It is also possible to attach a towing rope to the front end.

2

## 2 Therapy Board Flex

46131

height: ..... 8 cm    Ø: ..... 36 cm  
 weight: ..... 1,11 kg  
 content: 1 balance board, 2 wobble elements  
 material: birch plywood, laquered  
 delivery: unassembled  
 Registered Design.

This Wobble Disc is a veritable multi-talent. The exchangeable wobble components can be used for performing a whole different variety of exercises – twirling round or seesawing, on- or off-centre. Whatever the function, this sports and therapy unit poses a challenge one way or the other. The anti-slip and resilient material on the underside does not require any additional underlay. The balancing board comes in a coated finish and can be cleaned without any trouble at all.

**LOAD  
CAPACITY  
UP TO  
140 kg**

scores of variations

Step-by-step the **SensoPath** product line guides the user through the world of sensory and motor functions. A balancing and wobbling act is the result, combined with a feeling of poise, a comparison of one's own physical abilities and a great deal more. One foot is deliberately placed in front of the other, stimulating a depth-sensory effect to weak feet. Resorting to a variety of different materials, surfaces and motor challenges serves to train bodily perceptions. All materials used are sweat- and saliva-proof, and are tested for toxics or harmful substances. SensoPath units are ideal foot trainers for games, sports and therapeutic applications.

44431

Erzi

### 3 SensoPath Motility

length: ..... 28 cm      width: ..... 14 cm  
 height: ..... 3,5 cm      Ø: .....  
 weight: ..... 1,6 kg

content: 6 seesaw-type foot mounts  
 material: birch plywood, laquered

Size foot with rubber ball: 28 x 14 x 3,45 cm

Warning! Not suitable for children under 36 months. Strangulation hazard! Contains long string.

Setting foot on one of these SensoPath units involves the body in a constant process of alternation between body tension and balance. Similar to a therapeutic wobble board, these seesaw-type foot mounts exercise a positive effect on posture and coordination. The rubber ball under one of the foot mounts prevents slippage, even on smooth floors! Turning the ball upwards enables the SensoPath unit to be used for stretching and invigorating the transversal arch. Use is recommended with shoes, socks or barefoot.

3

6 pieces

in a set

44434

### 4 SensoPath XL

length: ..... 140 cm      width: ..... 28 cm  
 height: ..... 2,26 cm      Ø: .....  
 weight: ..... 2,21 kg

content: 9 feet with different materials and surfaces  
 material: birch plywood, laquered; beech, coloured laquered; polypropylene; polyamide; aluminium; cork; no-slippering pad

Size highest foot: 28 x 14 x 2,26 cm

Warning! Not suitable for children under 36 months. Strangulation hazard! Contains long string.

Nine foot mounts revealing different materials and surface structures constitute the broad spectrum of this SensoPath product line. Constantly changing stimuli such as warmth and cold, hard and soft or smooth and rough are sensed and learned. Promotion of balance, sense of touch and tactile perceptions are the main issues involved in this keep-fit trail, the setup of which can be linear, circular or varied. Suitable for all age groups. Use is recommended without socks.

**44602**

**1 Panto-Mimo, Blue big**

length: ..... 150 cm    width: ..... 100 cm  
 weight: ..... 500 g  
 material: polyamide, elastane

Panto-Mimo provides ample opportunity. Handicapped or not, you can rely fully on your own senses when joining in the Panto-Mimo game. Panto-Mimo needs no particular instruction. Allowing you to play and move about at your own leisure encourages and challenges self-confidence, sense of balance, orientation skills, concentration and coordination. The large Panto-Mimo is a real challenge and engaged interaction with one another.

**44220**

**2 Set of Singing Bowls**

weight: ..... 1,8 kg  
 content: 3 singing bowls in various sizes (approx. Ø17cm/750g, Ø13/500g and Ø11cm/350g) and 3 different beaters (L: 15cm, 20cm, 30cm)  
 material: brass

Singing bowls are used worldwide for meditation, music, relaxation, and personal well-being. When they are struck or rubbed the singing bowls produce sounds. The rubbing movements are made on the edge of the bowl with the help of a wooden beater. A penetrating sound is produced with a long and even rubbing movement either clockwise or counter clockwise. All 3 beaters can be used for striking on the side (top edge). Very deep or high sounds are made depending on the beater and the size of the singing bowl.

# Safety

is our prime consideration

All Erzi products undergo consistent and regular testing along with official certification procedures. For double security: In addition to stringent in-house quality control measures, constant testing is carried out by external independent institutes and public bodies. This comprehensive quality management policy is documented by our seal of tested approval.

## Wood as natural material:

Please take note that wood is a natural material and can change due to temperature, humidity, etc. All of our products are carefully processed and protected by environmentally sound lacks or varnishes in order to guarantee optimal durability. Erzi® products can be played with out of doors but must be protected from rain and dampness.

The rights of technical and physical alterations are reserved. The colors shown in the catalogues can differ from those actually present on the products. All measurements and weights, which have mentioned, serve only as guidelines, which means they are not obligatory.
